Cautionary Note Regarding Forward-Looking Statements

This Form 8-K contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended. All statements, other than statements of historical fact, included into this Form 8-K, including, without limitation, statements regarding our financial position, business strategy and other plans and objectives for our future operations, are forward-looking statements.

These statements include declarations regarding our management’s beliefs and current expectations. In some cases, you can identify forward-looking statements by terminology such as “may,” “will,” “should,” “expects,” “plans,” “anticipates,” “believes,” “estimates,” “predicts” or “continue” or the negative of such terms or other comparable terminology. These forward-looking statements are subject to inherent risks and uncertainties in predicting future results and conditions that could cause the actual results to differ materially from those projected in these forward-looking statements. Some, but not all, of the risks and uncertainties include those referred to in the section entitled “Risk Factors” and the following:

- assumptions related to the sources of liquidity, our ability to fund advances and the adequacy of financial resources;
- estimates regarding prepayment speeds, float balances, delinquency rates, advances and other servicing portfolio characteristics;
- projections as to the performance of our fee-based loan processing business and our asset management vehicles;
- assumptions about our ability to grow our business;
- our plans to continue to sell our non-core assets;
- our ability to establish additional asset management vehicles;
- our ability to reduce our cost structure;
- our analysis in support of the decision to spin off Altisource as a separate company;
- our continued ability to successfully modify delinquent loans and sell foreclosed properties;
- estimates regarding our reserves, valuations and anticipated realization on assets and
- expectations as to the effect of resolution of pending legal proceedings on our financial condition.

Forward-looking statements are not guarantees of future performance and involve a number of assumptions, risks and uncertainties that could cause actual results to materially differ. Important factors that could cause actual results to differ include, but are not limited to, the risks discussed in “Risk Factors” above and the following:

- availability of adequate and timely sources of liquidity;
- delinquencies, advances and availability of servicing;
- general economic and market conditions;
- uncertainty related to market conditions and government programs;
- governmental regulations and policies and
- uncertainty related to dispute resolution and litigation.

Further information on the risks specific to our business is detailed within this Form 8-K and our other reports and filings with the Commission, including our Annual Reports on Form 10-K, our Quarterly Reports on Form 10-Q and Current Reports on Form 8-K. Forward-looking statements speak only as of the date they are made and should not be relied upon. Ocwen Financial Corporation undertakes no obligation to update or revise forward-looking statements.

Risk Factors

In addition to the other information in this Form 8-K you should carefully consider the risk factors set forth below as well as those set forth under the heading “Risk Factors” in Item 1A of our most recent Annual Report on Form 10-K and Item 1A of each of our subsequently filed Quarterly Reports on Form 10-Q as the same may be updated from time to time by our future filings under the Securities Exchange Act of 1934, as amended, or the Exchange Act.

The risks and uncertainties we describe are not the only ones facing us. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also impair our business or operations. Any adverse effect on our business, financial condition or operating results could result in a decline in the value of our common stock and the loss of all or part of your investment.

Risks Relating to the Altisource Spin-off

We could have conflicts with Altisource, and our Chief Executive Officer and Chairman of the Board, and other officers and directors, could have conflicts of interest due to their relationships with Ocwen and Altisource which may be resolved in a manner adverse to us.

Conflicts may arise between Ocwen and Altisource as a result of our ongoing agreements and the nature of our respective businesses. Among other things, we will become a party to a variety of agreements with Altisource in connection with the spin-off (as described in the section entitled “Relationship between Ocwen and Altisource following the Separation” in Ocwen’s Registration Statement on Form S-3, as filed with the Securities and Exchange Commission on July 16, 2009), and we may enter into further agreements with Altisource after the spin-off. Certain of our executive officers and directors may be subject to conflicts of interest with respect to such agreements and other matters due to their relationships with Altisource.

William C. Erbey, who will remain our Chief Executive Officer and Chairman of the Board, will become Altisource’s non-executive Chairman of the Board as a result of the spin-off. As a result, he has obligations to us as well as to Altisource and may potentially have conflicts of interest with respect to matters potentially or actually involving or affecting us and Altisource.

Mr. Erbey will own substantial amounts of Altisource common stock and stock options because of his relationships with Altisource. This ownership could create or appear to create potential conflicts of interest when our Chairman of the Board is faced with decisions that involve Ocwen, Altisource or any of their respective subsidiaries.

Matters that could give rise to conflicts between us and Altisource include, among other things:

- our ongoing and future relationships with Altisource, including related party agreements and other arrangements with respect to the administration of tax matters, employee benefits, indemnification and other matters;
- the quality and pricing of services that Altisource has agreed to provide to us or that we have agreed to provide to Altisource and
- any competitive actions by Altisource.

We will also seek to manage these potential conflicts through dispute resolution and other provisions of our agreements with Altisource and through oversight by independent members of our Board of Directors. There can be no assurance that such measures will be effective, that we will be able to resolve all conflicts with Altisource or that the resolution of any such conflicts will be no less favorable to us than if we were dealing with a third party.

If the spin-off of Altisource does not qualify as a tax-free transaction, taxes could be imposed on Ocwen, Altisource and its shareholders.

It is a condition to completing the spin-off that Ocwen receive an opinion from Ocwen’s special tax advisor confirming that for United States federal income tax purposes the transaction qualifies as a tax-free spin-off under Section 355 of the Internal Revenue Code (Code). A spin-off that so qualifies will not be taxable to Altisource or its shareholders except to the extent shareholders receive payment for fractional shares. Pursuant to Treasury regulations under Section 367(b) of the Code, Ocwen will recognize a portion of its gain realized pursuant to the spin-off; however, because Ocwen will undertake a pre-spin restructuring that will be taxable, such gain should not be material to Ocwen. Altisource has agreed to indemnify Ocwen for certain tax liabilities. Ocwen will be subject to tax on certain of the asset transfers within Ocwen that are made in the pre-spin restructuring actions, and under the applicable Treasury regulations, each member of Ocwen’s consolidated group at the time of the spin-off (including several Altisource subsidiaries) would be severally liable for such tax liability. If the spin-off does not qualify as a tax-free transaction for United States income tax purposes, Ocwen shareholders generally would be treated as if they received a distribution equal to the full fair market value of the Altisource common stock on the date of the spin-off.

Even if the transaction were to otherwise qualify for tax-free treatment under Section 355 of the Code, it would become taxable to Ocwen pursuant to Section 355(e) of the Code if stock representing a 50% or greater interest in Ocwen or Altisource were acquired by one or more persons, directly or indirectly, as part of a plan or series of related transactions that included the spin-off. If the Internal Revenue Service (IRS) were to determine that acquisitions of Ocwen common stock or Altisource’s common stock, either before or after the spin-off, were part of a plan or series of related transactions that included the spin-off, this determination could result in the recognition of gain by Ocwen under Section 355(e).

The Altisource spin-off could have a dilutive effect on Ocwen shareholders, will initially reduce Ocwen’s market value and balance sheet and may impact Ocwen’s ability to obtain or maintain financing.

The aggregate principal amount outstanding of the 3.25% Contingent Convertible Unsecured Senior Notes Due 2024 (the Securities) issued by the Company is currently approximately \$56 million. Under the terms of the indenture relating to the Securities, if the value of Altisource is greater than 10% of the Company’s current market value at the time of the spin-off, then a Conversion Event would occur which would permit holders of the Securities to exercise an option to convert all or any portion of their Securities into shares of Common Stock of the Company. Ocwen’s Board of Directors has declared that the value of Altisource will likely be greater than 10% of the Company’s market value at the time of the contemplated spin-off. Accordingly, a Notice of Conversion Rights has been provided to all holders of the Securities pursuant to the terms of the related indenture. There can be no assurances regarding whether or to what extent such holders will exercise their option to convert the Securities. If all holders do convert their Securities into Common Stock, then the dilutive impact to existing Ocwen shareholders would be 7%.

The Altisource spin-off will also initially reduce the Company’s market value and balance sheet. There can be no assurances regarding whether or to what extent the Altisource spin-off or these factors may be viewed by the Company’s current or potential lenders or other counterparties as negatively impacting the Company’s ability to obtain, maintain or renew financings, credit agreements, guaranties or other contractual relationships.
