West Palm Beach, FL – (November 6, 2018) Ocwen Financial Corporation (NYSE:OCN) (Ocwen or the Company), a leading financial services holding company, today announced operating results for the third quarter of 2018. Ocwen reported a GAAP net loss of \$(41.1) million, or \$(0.31) per share, for the three months ended September 30, 2018 compared to a net loss of \$(6.1) million for the three months ended September 30, 2017. Ocwen generated revenue of \$238.3 million and Cash Flows from Operating Activities of \$93.7 million for the three months ended September 30, 2018, and ended the quarter with \$254.8 million of cash.

Glen A. Messina, President and CEO of Ocwen, said, "We believe our acquisition of PHH on October 4, 2018 provides us with the opportunity to transform to a stronger, more efficient company, better able to serve our customers and clients, and positions us for a return to growth and profitability. In the near term, our goal is returning to profitability in the shortest timeframe possible, taking into consideration the robust, prudent integration process we are undertaking. We believe our return to profitability will largely depend on realization of acquisition synergies and our ability to replenish portfolio runoff, among other factors."

Mr. Messina continued, "Based on the Company's current situation and our assessment of the current industry environment, we have established a set of initiatives to enable our return to profitability and improve our competitive position. In the near term, we will be focused on executing the integration, reengineering our cost structure, returning to growth and fulfilling our regulatory commitments. Throughout this process, Ocwen will continue its long-standing commitment to enabling and preserving homeownership for underserved and at-risk customers, and this core value will continue to be a guiding principle as we move the Company forward."

Third Quarter 2018 Results

Pre-tax loss for the third guarter of 2018 was \$(40.3) million, a \$(13.7) million increase from the third guarter of 2017.

The Servicing segment recorded \$(13.9) million of pre-tax loss for the third quarter of 2018. The business was negatively impacted by lower revenue from a smaller portfolio and higher professional fees. We also recorded gains related to our investments in seasoned residential loans acquired through executing RMBS call rights in the second quarter of 2018, which were not repeated in the third quarter.

The Lending segment recorded \$(2.1) million of pre-tax loss for the third quarter of 2018. Our reverse mortgage lending business recorded \$(0.9) million of pre-tax loss and our forward lending recapture business incurred a \$(1.2) million pre-tax loss. Both businesses have been negatively impacted by higher interest rates. In addition, the reverse mortgage lending industry continues to adjust to the impact of HUD program changes introduced in the fourth quarter of 2017.

The Corporate segment recorded a \$(24.3) million pre-tax loss for the third quarter of 2018, which includes \$(12.5) million of corporate interest expense and \$(9.1) million of CFPB and state regulatory related legal fees and escrow related testing expenses.

Additional Third Quarter 2018 Business Highlights

- The combined Ocwen and PHH servicing portfolio totaled 1.7 million loans representing unpaid principal balance of \$287 billion as of September 30, 2018.
- Completed 9,179 modifications in the quarter to help struggling families stay in their homes, 15% of which included debt forgiveness totaling \$44 million.
- Delinquencies decreased from 8.3% at June 30, 2018 to 7.8% at September 30, 2018, primarily driven by loss mitigation efforts.
- The constant pre-payment rate (CPR) decreased from 14.3% in the second quarter of 2018 to 13.7% in the third quarter of 2018. In the third quarter of 2018, prime CPR was 16.2%, and non-prime CPR was 12.4%.
- In the third quarter of 2018, Ocwen originated forward and reverse mortgage loans with unpaid principal balances of \$172.3 million and \$147.5 million, respectively.
- Our reverse mortgage portfolio ended the quarter with an estimated \$98.4 million in undiscounted future gains from forecasted future draws on existing loans. Neither the anticipated future gains nor the future funding liability are included in the Company's financial statements.
